Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1, 2, 9, 10 and 27-29, classified in 463/47, drawn to a card stack reader and how the imaging is accomplished.

Group II, claim(s) 1, 11-13 and 26, classified in 273/148A, drawn to a card stack reader including a case with certain limitations.

Group III, claim(s) 3-8, 18-20, 24, 30 and 31, classified in 273/293, drawn to a card.

Group IV, claim(s) 14-17, classified in 283/172, drawn to a card manufacturing method.

Group V, claim(s) 21-23, classified in 463/11, drawn to a gaming machine.

Group VI, claim(s) 25, classified in 463/43, drawn to a computer readable medium.

The inventions listed as Groups I-VI do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: In Group I the inventive concept is a card stack reader which is capable of reading the value of a card through light imaging. In Group II the inventive concept is a card case to hold cards in a reading machine. In Group III the inventive concept is a playing card. In Group IV the inventive concept is how to manufacture playing cards. In Group V the inventive concept is a gaming

Art Unit: 3713

machine for playing a game. In Group VI the inventive concept is a computer readable medium with a program stored on it. There is no technical relationship among the Groups of inventions involving one or more of the same or corresponding special technical features. The expression "special technical features" shall mean those technical features that define a contribution which each of the claimed inventions, considered as a whole, makes over the prior art.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and the search required for each Group is not required for the other Groups restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
